At My College

1.

From my point of view our college is modern and well-designed. It is a three-storey building with a sports ground behind it. I really think it is the best educational institution in Moscow. We even have an inside swimming pool!

On the ground floor there are the classrooms for the first-year students, workshop and library. There are all kinds of tools and machines in the workshops. In the library two librarians help students to find the books they need. In the reading room there are laptops which we can use during the breaks and after classes.

Our canteen is spacious, light and clean.-We have our meals there.

The physical training lessons take place in the gymnasium and the swimming pool. We like to go there even after the lessons. To the left of the gym there is a hall and a staircase. The staircase leads to the first floor.

The classrooms are well-equipped. Each room has a teacher's table, students' desks, a board, a computer and a multimedia projection unit. There are special classrooms for Chemistry, Physics, Biology, History, Geography, English and Russian. My English classroom is on the second floor. It has three big windows. There are lots of potted plants on the windowsills, and we take good care of them. The board in our classroom is magnetic. We write with markers on it and attach our projects to it with magnets. Next to the board there are maps of Russia and Great Britain, various grammar tables and charts. There is a computer in the right-hand corner. We often listen to original English texts, songs and watch films on a big screen which make our lessons interesting.

I like my college. It provides us with everything to help us become good specialists.

Alexei is going to leave school in a year, but he realizes that he must start thinking about further education about further education right now, because it is essential to read for exams well beforehand. So he asks his brother to tell him about his college and advice.

Alexei : Vlad, I want to ask you about college life. Is it different from school life

Vlad: Well, it depends on what you are interested in. We, too, in college have lessons, and marks; teachers give us homework , and there are examinations and tests.

Alexei: Well, I see. But, then, is there any difference between a school and a college?

Vlad : Why, of course. First , at college we have special subjects in our curriculum. For example, if one is going to be a teacher, he or she will take pedagogy, psychology, and methods of teaching. If one wants to become an economist, he or she will study economics, accounting, taxation and a lot of other things. It's really very interesting. 1. 3. Материалы промежуточной аттестации по учебной дисциплине

Перечень практических заданий к дифференцированному зачету 1. Read the text Teacher is a vocation, not a profession

There are a lot of people who influence our life and can be role models for us. They are our parents and relatives and, of course, our teachers. The profession of a teacher is a very noble one and demands a great erudition and a great patience to children. Profession of a teacher is one of the most ancient professions but even today it still remains one of the most important. Teachers do not only educate their students, but bring them up and help them become part of the society. Not everyone can be a teacher as being a teacher means being a good example. Teacher must have an immaculate reputation, be someone who his or her students can be proud of, trust and seek advice.

Teachers, along with parents, take part in the process of upbringing. Teachers help resolve conflicts and arguments, they explain the rules of behavior and a lot more. It is very important for a teacher to find an approach to every student. Professionalism of a teacher also plays a great role. Teachers do not only teach their subjects. They develop their pupils' intellect, their attitudes to life and to other people.

When I saw an article on the internet about Pokrovsky dynasty I decided to think about the role teachers play in our life. The total pedagogical experience of the teachers of Pokrovsky dynasty makes more than 380 years. This is continued pedagogical work for nearly four centuries of four generations of this remarkable family, who devoted their lives to teaching young generation. The subjects that the Pokrovskys taught were very different. Among the representatives of the dynasty there were primary school teachers, teachers of Russian language and Literature, of mathematics, physics and biology, and even a tutor at youth custody centre.

It could be said that the teachers of Pokrovsky dynasty imparted their knowledge to thousands of children. Pavel Pokrovsky and Zynaida Pokrovsky were the establishers of the dynasty. More often than representatives of other professions, a teacher has a unique opportunity to impart to other people his knowledge and experience. A teacher puts a part of his soul in his pupils. He rejoices and worries together with us. I consider that we should remember our teachers, appreciate and respect their work!

2. Answer the questions
